Hydrating and firming treatment. Firmer, smoother, and more radiant skin.

Starting at \$320 USD

For pricing details, please contact our Medical Concierge.

High Tech

FRAXIS

Uses fractional radiofrequency only, with interchangeable tips; its pinpoint heat stimulates deep collagen, ideal for scars and localized laxity.

4 sessions for visible results

Multipolar Radiofrequency

Delivers uniform heat through multiple poles; it comfortably improves firmness, wrinkles, and pores without harming the surface.

4 sessions for visible results

Starting at \$27 USD

For pricing details, please contact our Medical Concierge.

ENDOLIFT | Area

Subcutaneous laser session by area. Tightens and redefines without surgery (lipo-like effect).

1 to 3 sessions per year recommended.

ENDOLIFT | Full region

Full-region subcutaneous laser session (3 areas). Complete non-invasive lifting (lipo-like effect).

1 to 3 sessions per year recommended.

CO₂ Carboxy Therapy

Medical CO₂ injection session. Improves circulation and reduces cellulite.

Recommended 6 to 10 sessions for visible results

Plasmage

Aesthetic fractional plasma. Tightens and regenerates without damaging the skin.

1 to 2 sessions per year recommended.

Pressotherapy

Non-invasive lymphatic drainage treatment that applies pressure to stimulate circulation and aid in muscle recovery.

3 to 6 sessions per year recommended

Skinscanner Beauty

Scans your skin, generates a score for your skin's health and aging, and offers personalized routine recommendations to improve it.

Cryo-fraxis (Fractional Cryo-Radiofrequency)

Blends cryo-radiofrequency with fractional radiofrequency; the cold-heat contrast triggers a biological shock that renews the skin and gives almost immediate firmness.

4 sessions for visible results
